

In our monthly newsletter you find the newest information on our products, our staff and much more on the subject of standard moulds.

Enjoy reading!  
Best regards,  
the Meusburger Team

### 1. Large expansion of the range of self-lubricating sliding elements

- » Self-lubricating sliding elements for all common applications in mould making
- » Sliding plates and guide strips now also available with screw holes
- » Minimise service costs with self-lubricating sliding elements
- » Particularly suitable for all areas where lubricants cannot be used

[More information...](#)

### 2. NEW – Extensive range of springs

- » Pressure springs in numerous dimensions and lengths of spring for cutting to length as required
- » System pressure springs in accordance with DIN ISO 10243 in all common sizes and load classes
- » Elastomer springs and Bellville washers
- » Matching range of accessories for optimal process reliability

[More information...](#)

### 3. CD-ROM update version V 3.15.0

You will find our latest CD catalogue update **including our new products**

- » Sliding elements
- » Springs

at [www.meusburger.com](http://www.meusburger.com) (CD catalogue update version 3.15.0).

#### 4. Digital catalogue: user-friendly re-design

The new Meusburger CD and online catalogue will be revised this year in collaboration with the UCT (User Centered Technologies) research team at the University of Applied Sciences in Vorarlberg (A). Usage will be simplified with new functions and the design of the user interface improved
